1. **New project:** Yes \_\_\_\_\_ No X \_\_\_\_\_

### **2. Brief Summary and Objectives of Project**

This year for the Holidays our club decorated 17 outdoor planters for 4 different locations in Lake Forest. The locations were the First Presbyterian Church, Croya Community Center, Lake Forest & Lake Bluff History Center, and the Gorton Community Center. Our objective is to create a holiday spirit in these widely used historic community places in Lake Forest.

### **3. Involvement of Club Members**

Two members were in charge of selecting and buying the greens for the planters. Each location had a different group of members designing and installing the greens, for a total of 5 members participating.

### **4. Project expenses and means of funding**

The cost for creating the planters was \$525.00. The funds for this project came from members dues as well as a fundraiser through the community. We created and sold small greenery pieces at First Presbyterian Church.

### **5. Continuing Involvement, Follow-up & Maintenance**

After the holidays members will remove the holiday greens and prepare the planters for spring.

First Presbyterian Church

Lake Forest & Lake Bluff  
History Center

Gorton Community Center  
and  
Croya Community Center
