

District IV

Tori Corkery, GCI District Director

Farmer City Garden Club members have been busy these past few months. In December, they held their wreath workshop. The 20 participants created wreaths using evergreens cut from local gardens, along with ribbons and decorations donated by the Farmer City Garden Club and the local outreach center who sponsored the workshop. Also in December, club members created 12 decorated planters for Main Street in advance of the Farmer City Christmas Parade (the largest in Central Illinois). At the club's February meeting, members created Valentine flower arrangements with paper flowers, candy, and other decorations to take to the local nursing home.
